

# POMPEII T1

# INFORMATIONS

---

**POMPEII T1** is an echo effect created to receive the 3rd and 4th head filters of the sonority of POMPEII PE603. Totally re-engineered to make it more suitable for today's needs. Is designed with a full tube pre-amplifier and equipped with a new compact and elegant chassis.

It offers a different way of conceiving echo effects. A lot of time was spent developing the best tube pre-amp, feedback and tone circuits; as a result, the interaction between the feedback and the tone controls can create the most beautiful sounds carpet.

## **What to expect from POMPEII T1?**

Like POMPEII PE603 puts you immediately at ease following your touch like a shadow. The repetitions come very naturally by rolling out unique musical carpets. The tone control linked to the echo/rep section allows to control the repetitions frequencies ranging from high to low. The old age modulation control, colors the sound in tune with the chosen delay making it special in arpeggios.

DESIGNED AND HAND-BUILT IN ITALY

# DETAILS

---

**An ambitious project:** POMPEII T1 is equipped with an analogue tube preamplifier buffered at the first and second gain stage in order to preserve the maximum linearity and sound quality. The tube preamplifier has a passive parallel mixing stage where, thanks to a maximum mixing effect of 50% between Dry / Wet, the contamination of the digital delay signal part is really minimal. **POMPEII T1** like all the **"TIMELESS SERIES"** is equipped with true bypass switches in order to guarantee the maximum transparency of the bypass signal and a hi quality tube, 12AX7/ECC83 medium gain type.

**Design:** We have designed a new circuit around an innovative, compact, practical and robust chassis. The hand drawn pcb integrates a voltage booster stage able to drive the valve to ensure a greater signal dynamics.

**Quality:** Quality is very important for us. For this reason we continue to use high quality components; no internal parts in SMD technique; switches and jack gold connectors built in Italy to guarantee a longer life.

**CICOGNANI ENGINEERING** reserves the right to modify the technical characteristics and layout of the products at any time and without notice. This product is built to the rule of art and observes the technical requirements of the Directives Europee 89/366EEC.

# CONTROLS

---

1. Bass/Treble: Echo tone control
2. Magic of Age: Modulation control
3. Volume Echo: Volume level echo
4. Length of Swell: Feedback
5. Tube Type: 12AX7/ECC83
6. Echo: Time control
7. Bypass: On/Off effect with feedback reset

# SPECIFICATIONS

---

Power In	12VDC (Negative Tip)
Consumption	350mA
Input Impedance	<1M Ohm
Input Level	0.5Vpp
Effect Mix Level	Parallel MAX 50%
Out Impedance	<100K Ohm
Out Level	0db max 1Vpp
Bandwidth	10 to 65Khz
Delay Time	From 87mS to 520mS
Tube Type	12AX7 medium Gain
Signal Noise Ratio	<76db
Weight	0.5kg (1.1 lbs)
Length	126mm (4.9")
Width	94mm (3.7")
Height	42mm (1.6")

**CAUTION!** Make sure to check the power supply connection as per technical specifications. This pedal cannot be powered by a battery.

# GURU ADVISES

---

## POWER:

Power input 12VDC (negative tip) **350mA**

## INPUT:

High / low impedance input

## OUT:

Main output with low impedance. This output integrates all the functionalities of the unit.

All input/output connections are type: 6.3mm mono jack.

The **TIMELESS SERIES** is equipped with an internal voltage doubler circuit. For this reason it is necessary to use a **stabilized power supply** capable of guaranteeing a maximum working voltage of 12VDC.

DESIGNED AND HAND-BUILT IN ITALY

# WARRANTY TERMS

---

The guarantee of the products is two years from the purchase data. Switches, buttons, relays are one year. The thermionic valves, indicator lights, wiring cables are guaranteed for three months.

Responsibility of **CICOGNANI ENGINEERING** is limited to repair or replacement of the product at our discretion.

**CICOGNANI ENGINEERING** not be liable for damages resulting from loss of use of the product, lost time operation interrupted by non-use, loss of business or any other damages or incidental, consequential or otherwise; damage in transit or damage caused by inadequate packaging.

**How to receive assistance:** Send an email to [sales@cicognani.eu](mailto:sales@cicognani.eu) in order to make agreements on how and where to send the product. The product must be sent together with a copy of the receipt/sales receipt. Shipping and packing costs are the responsibility of the purchaser.

**THE WARRANTY IS NOT VALID WITHOUT A COPY OF YOUR RECEIPT OF SALE CERTIFYING THE DATE OF PURCHASE.**
